# ALEN JOHN

Kollam, India | + 91 8848603693 | alenyohannan0007@gmail.com | LinkedIn | Portfolio

## CORE TECHNICAL SKILLS

- Network protocol
- Intrusion Detection/Prevention
- Security protocols
- Vulnerability assessment
- Firewall Management
- Incident response
- SPLUNK
- LINUX
- Web application security
- SIEM
- Penetration testing
- Wazuh
- VAPT
- Web development
- HTML/CSS/JAVASCRIPT/SQL

## WORK EXPERIENCE & INTERNSHIPS

**1. Cyber Security Researcher -** Redteam Hacker Academy Trivandrum, India                    Nov 2024 – April 2025

- Hands-on experience with log analysis, IDS/IPS, endpoint detection and response (EDR), and vulnerability assessment tools.

- Gained **hands-on experience** in security monitoring using tools like **Splunk, Wazuh, Wireshark, IBM QRadar, and the ELK Stack**.

- Skilled in VAPT with expertise in web security, SQL injection, networking (OSI, TCP/IP), tools like Kali Linux, Metasploit, Wireshark, Nmap, and server security (Apache, HTTPS).

**2. Cyber Security Intern -** Pinnacle Labs Pvt Ltd, India                    April 2025 – May 2025

- Selected for a 2-month cybersecurity internship at Pinnacle Labs to gain hands-on experience in penetration testing, network security, and secure software development.

## PROJECTS

**1. Website Log Monitoring using Splunk**                    SOC Project

- Implemented a **Splunk**-based monitoring solution to analyze and visualize real-time log data from a website.
- Detected anomalies and generated actionable insights to strengthen security and improve application performance.

**2. System Log Monitoring using Wazuh in Windows 11**                    SOC Project

- Integrated **Wazuh** with **Windows 11** by deploying the Wazuh agent for real-time log monitoring.
- Conducted security event detection, incident analysis, and proactive threat management using the Wazuh dashboard.

**3. Anganwadi Management System (Python, Django)**                    Master's Project

- Developed a web-based system using **Python** and **Django** to manage **Anganwadi centers**.
- Facilitated child registration, vaccination tracking, and staff coordination, ensuring efficient service delivery.

## CERTIFICATIONS

1- **Certified IT Infrastructure and Cyber SOC Analyst -** RedTeam Hacker Academy, Trivandrum

2- **Web Development -** Softzane Solutions, Ayur, Kollam

## EDUCATION

**Master of Computer Applications (M.C.A)  - 75%**                    September  2022 - November 2024
Mar Thoma Institute of Information Technology, Ayur/Kollam, Kerala

**Bachelor of Computer Applications (B.C.A)   - 69%**                    June  2019 - August 2022
Catholicate College, Pathanamthitta, Kerala
